## Coming World Series Will Materially Aid Soldiers' Benefit Fund.

New York, Sept. 15.—The coming world series is expected to add materially to the fund being collected by Clark Griffith for the purchase of baseballs, bats and other playing paraphernalia for the American troops in Europe.

The manager of the Washington American league club has been active recently in obtaining the consent of the teams likely to be involved in the series to contribute to this fund, with excellent results. Charles A. Comiskey and Harry H. Frazee, presidents of the Chicago and Boston clubs respectively, have agreed to contribute 1 per cent of the club's share of the gross gate receipts of all world series games in case their contributions are participants.

H. N. Hempstead, president of the New York Nationals, has also offered to be a party to the same agreement. The national commission has informed Griffith that body will donate 1 per cent of its share of the receipts and the players of the competing teams will receive an opportunity to contribute a similar percentage of their division of the world series money.

Arrangements have also been made whereby Griffith, aided by his agents, will be permitted to collect such contributions as spectators may desire to make during the first game played in each city.

## Old Time Pitcher Springs Sensation by Wonderful Box Work.

Much has been said of Chief Bender's comeback with the Phillies, for it was one of the most surprising features of the present baseball season. Bender, after 14 years as a big league pitcher, was counted out early in the season when he came back with a comeback. He was even beaten by several semi-pro teams and he appeared to be done for all time. But the old chief has fooled 'em all. Once a disciple of the "Order of the Flaming Bowl," Bender often went as far as to ruin his pitching effectiveness for several weeks at a stretch. But now, that he has climbed the water cart and is taking care of himself, his pitching talents have all returned to him, and a comeback is greater than any we can name.

## CAVALRY CLUB WANTS A GAME

The fast baseball team representing the cavalry regiment stationed at Camp Stewart, which has defeated every other military team in this district, is anxious to arrange a post season series with the champion team of the New York Nationals. The present schedule comes to an end Sunday afternoon the fast cavalry team is scheduled to go on against an artillery club at Camp Stewart.

HITTE GOES IN NAVY.  
Charles Hitt, trainer of the Cleveland team, will enlist in the navy after the baseball season closes, and more than that his son will enlist with him. The Cleveland trainer had several years of service in the navy and went through the Spanish-American war on one of the fleet's ships.

## Who's Who In World Series

By JACK VEECH.

EDDIE CICOTTE, Premier White Sox pitcher, enjoying the best season of a career of ten years as a major league pitcher.

CHARLIE CUTLER, premier pitcher of the Chicago White Sox. Rival clubs of the Sox have howled long and loudly about Cicotte's pitching this season. They have charged him with everything they could think of in the line of unfair tactics on the mound, but to date no one has been able to prove that he has been using illegal methods, and he keeps on winning. Cicotte's victory after victory for Clarence Rowland's team and piling up a record that will go down in baseball annals as one of the best in American league history.

Cicotte's work on the rubber has been the outstanding feature of the defense of the National club this year. Cicotte alone has won a fourth of the games played away from Comiskey's pen, and Cicotte will be the man upon whom the burden will be placed this fall.

Whether it is the "white ball" which has been credited to Cicotte, or simply a naturally fine control, that has aided him in sweeping aside opposition, ever since he has been in the major leagues, Cicotte has been able to tell his tale, or he has taken an unusual length of time to add into the history of the mound.

When Jack Combs was getting his first experience as a major league pitcher he had been taken on by Detroit and found wanting. He graduated from the same club that turned out Cobb, and then went to the Giants the same year. But since the beginning of the season of 1915 the little mound ball has been in the hands of the batters in the American league, and in looking back over his career the different batters for the Boston fan is the fact that the Red Sox turned him loose.

Cicotte has been the one big hurdle that the champion Red Sox have been unable to overcome. His work—no one can say, particularly—but against Boston, particularly—but against all other rivals, has given Chicago the advantage necessary to keep the Red Sox from being three-time champions. He is a Boston cast-off. Bitter thought!

Up to the present season Cicotte's most successful year in baseball was spent at Lincoln, Neb., when he won 22 games of ball. But this year he will pass that mark for several weeks now he turned in his 21st victory for Cleveland.

Cicotte was born at Detroit, June 12, 1881. He is five feet nine inches tall and weighs 175 pounds. He began pitching for Calumet in the "cup league" in 1904, and was taken on by Detroit the following year for a trial. From Detroit he went to Arizona, in the South Atlantic league, and once more he came back to the Tigers in 1906, only to be turned over

## EQUIPPED FOR THE JOB

## MINNESOTA SHIFT FOR ARMY INSTRUCTORS TO TEACH MEN

MINNEAPOLIS, Minn., Sept. 15.—The Minnesota shift is going to Europe. Since its invention by Dr. H. L. Williams, coach of the Gopher team, it has spread in some form at least all over the United States. Like his former play, the football back, derived from use of the army team at West Point when Dr. Williams was coach of the cadets, the Minnesota shift has spread all over the country. Now it is going abroad with the American overseas army.

More than 225 men are now in the football school at Fort Snelling, conducted by Dr. Williams. It is the earliest thing that the squad in the history of the game, as the men turn out to meet the coach at 5:30 a. m. and work at high pressure until 8 o'clock. The idea of the football work at Fort Snelling is along the lines of a coaching school. To sound some method, the athletic director has selected a team with which to demonstrate the work of the other officers, reserve students who will in turn teach the team to their men in camps and at the various centralization camps and behind the trench lines in Europe.

## SPORT SHRAPNEL

By BUD RUTHERFORD.

THE "white ball," Eddie Cicotte's masterpiece, that ushered that speedy twirler back into fame as one of the leading pitchers of the American league, and is now at the position of the White Sox at the top of the percentage ladder at the present time, is being debated as to whether it will be permitted during the world series between the White Sox and Giants. Delivery of the "frank ball" was prohibited by president Dan Johnson, of the American league, some time ago, however, and it is regarded as very probable that it will also be barred from the championship games in the event that the Giants put in a kick.

To this eccentric rule alone does Cicotte owe his sensational comeback, according to veteran baseball writers of the east, who are acquainted with the career of the "white ball" since he entered the Johnson draft. Cicotte, as a member of the Boston Braves, was a consistent pitcher, but it was not until two years ago when he went in a trade to the Cleveland team that he began to show an inkling of the wonderful form that landed him on the top of American league pitchers. With the "white ball" he turned it may be a different story, but Chicago fans are looking forward to a repetition of the sensational form of their favorite hurler when he faces the Giants.

City league will be slightly weakened Sunday afternoon when they answer the call of umpire Harry Kane for the matinee round. The Feldman club is in a particularly bad hole, having lost catcher Post, of the signal corps, who has been ordered to San Antonio, and Buster Gillette, who will leave in a short time for the state university, where he will study this year.

Post and Gillette are a battery well known to Pass City league hitters, as the little catcher is a player to be feared, both in the receiving and hitting end, while Gillette is a twirler of no little

## CURED AT 81

A well known gentleman who has lived at Marfa, Texas, for forty-six years, a man eighty-one years of age, a man whose veracity can be depended upon, a man loved and honored in his community, desires to vouch for the truth of our newspaper announcements and requests that we publish his letter. Here it is:

Marfa, Texas, 4-19-16.

Dr. Ketchersid, El Paso, Texas.  
Dear Doctor:—  
I am so well pleased with the treatment that you gave me for my PILES and am feeling so much better than I have felt for years that I wish to tell you and especially the public about it.  
I suffered with this trouble for nearly fifty years and during the last twenty-five years was often kept away from my work on account of them. I tried everything I could hear of with nothing more than temporary relief resulting. The first treatment you gave me stopped all pain, protrusion and bleeding and six completed my cure.  
I feel grateful for the relief I have experienced and will be pleased to tell any sufferer about my case and the easy painless method you employ.  
Sincerely yours,  
G. H. PERRINE.

This is merely one of hundreds of such letters on file in my office, originals of which can be seen at any time.

## WESTERN STARS LEAVE FOR EAST

The east must be to claim another of California's tennis stars, according to word received in San Francisco. John Strachan, who has been playing recently in the middle west in the Red Cross patriotic tour, has written friends that he has been elected to the California Tennis Association pennant, as St. Paul was defeated Friday afternoon while the California team was in the city.

Lincoln Claims Western Flag

Had the Western league season been carried through under the original schedule, the Lincoln team an easy winner. The game was won and lost for the two split teams, that is, the Lincoln team with a percentage of .387 as against .541 for Des Moines, which was in the lead when the season was split in July. Lincoln always claims that it is the rightful champion of the Western league for 1917.

MAKE TRIPLE IN TEXAS.

The only triple play of the Texas league season was made on Sept. 10, the last day of the season, when the Lincoln team was playing the Lincoln team an easy winner.

WOLVERTON TO COME EAST.

From out on the Pacific coast comes a story that Harry Wolverton is in line to manage the Detroit Tigers next year. Several scouts for Wolverton have been heard of late and it looks like somebody was never finding the National league exit, even though he shouldn't succeed in displacing Marvulle.

## HUGH JENNINGS ACCOMMODATING

There is not reason why ethics should not prevail in the baseball profession as well as in all others, but rarely ever has such courtesy been shown as was displayed by manager Hugh Jennings in a recent game between Detroit and Cleveland, when he graciously allowed Ross Spahr, who had retired on account of an injury, to re-enter the game after one inning. This kind of an act is only heard among managers, probably for the reason that if it were made a regular feature, it would be abused, but anyway the man who approaches Marvulle's famous ability, and a better of far more power and precision. If he is he will never find the National league exit, even though he shouldn't succeed in displacing Marvulle.

## STALLINGS IS REBUILDING CLUB

George Stallings's rebuilding has carried him a long way. In addition to purchases of outfielders and pitchers, he has picked off the Eastern league's finest shortstop and hardest hitter in shortstop Schreiber. This in the league that sent Rabbit Marvulle to the Braves. Critics in that circuit pronounce Schreiber a fielder who approaches Marvulle's famous ability, and a better of far more power and precision. If he is he will never find the National league exit, even though he shouldn't succeed in displacing Marvulle.
